EXPERIENCE

Web Developer – PoetryCircle.net

Tampa, FL

Web Developer/Designer

Mar 2007–Current 2007

Developed scripts, which displayed information to the users of the site. Scripts also allowed users to interact with the site by adding/editing/deleting their poems. Designed the pages and integrated them to work with the Smarty Template engine. Site is currently a work in progress and a personal project.

Street Team Entertainment – StreetTeamEnt813.com

Tampa, FL

Web Developer/Designer

Apr 2005–Current 2007

Designed and created streetteament813.com, updating the site when asked. Created designs for t-shirts, flyers, business cards, and cd inserts.

Web Developer – BabeTemplates.com

Internet

Web Developer

May 2004–Current 2007

Developed maintenance scripts, along with XHTML/CSS front end that integrated into Invision Power Board (IPB), and modified forums. Site had over 1k members and over 10k posts.

Clan Templates – ClanTemplates.com

Internet

Web Developer

Apr 2004–Mar 2006

Did security audits, corrected vulnerabilities, customized the forum, and wrote maintenance scripts. Managed the web server which the website was hosted on, modifying MySQL configuration along with Apache settings. Site has over 100k members and 1 million messages.

Hack This Site – HackThisSite.org

Internet

Web Developer

Oct 2003–Jan 2005

Developed “missions”, in which users learned security vulnerabilities by example. Also sped up the back-end coding to increase the website's overall performance. Site had over 50k users.

Story Time – Hulla-Balloo.com

Internet

Web Developer

Oct 2003–Jan 2005

Created front-end which allowed users to create a stories and gave author's the opportunity to add their own twist to it. Site is being re-developed at mystorytime.net
